

NOISE CONTROL /

WHISPER WALL

SOUND-ABSORPTIVE WALLS MADE FROM A UNIQUE COMBINATION OF RECYCLED RUBBER TIRES AND STRUCTURAL CONCRETE

Armtec's Whisper Wall sound-absorbing noise barrier wall panels are made from a unique combination of recycled rubber tires and structural concrete, which provides an effective, environmentally friendly solution for noise reduction.

In addition to reducing noise from highways, railways, airports and industrial activities, Whisper Wall blends in well with surrounding landscape. Many different designs can be used to create surfaces that are as unique and aesthetically pleasing as they are effective.

TYPICAL APPLICATIONS

- Roads and highways
- Railways
- Residential developments

Panel and post system

Integrated system with concrete posts

Strength

High-impact resistance

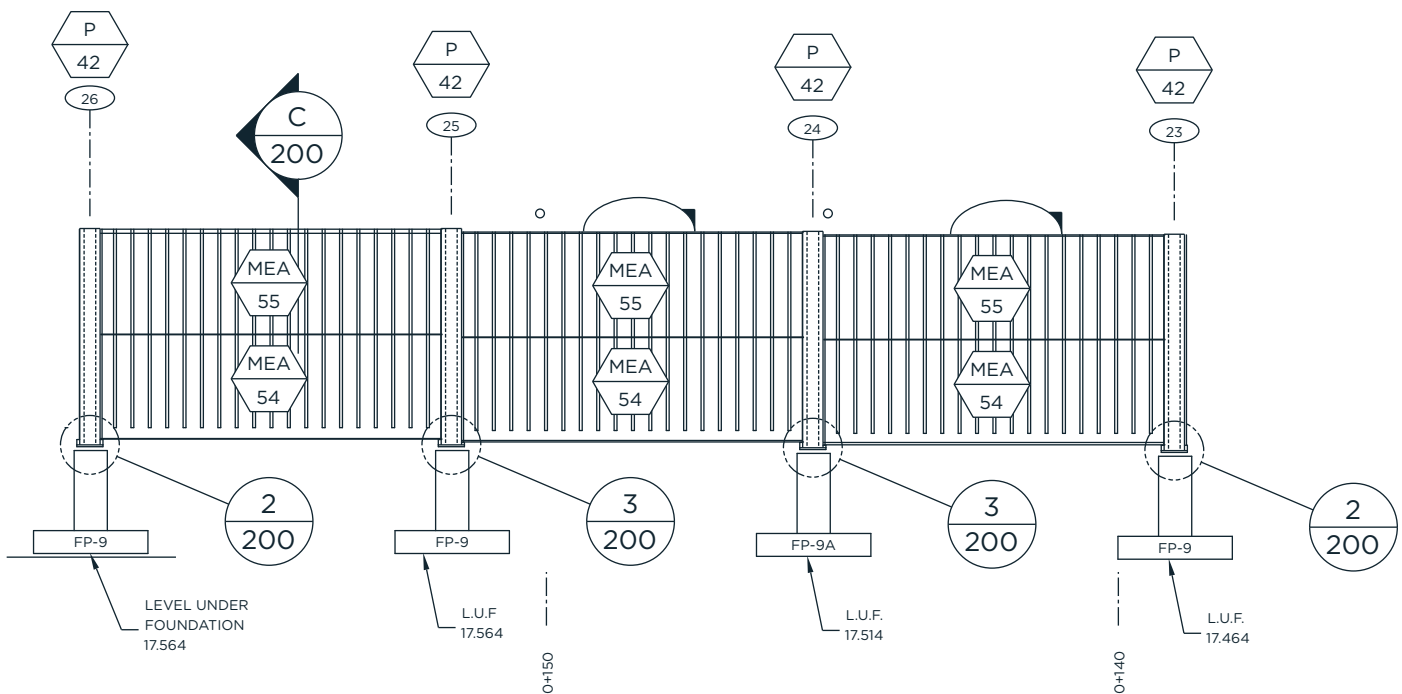

Durable

Materials do not rot, mold or decompose

Fast and easy installation

Large panels reduce the number of posts and panels required for installation
